

OUR SECTORS OF INTERVENTION

Uxello intervenes in tertiary and industrial sectors, as well as retail spaces. We offer an aggregate supply of maintenance solutions, as well as those related to special risks.

Uxello guarantees to see your project through from start to finish. From first risk analysis to final handover, including conceptualisation, prefabrication, procurement, planning, assembly, tests, commissioning phase, training, operation and maintenance.

✓ Industry

Above all, Uxello takes into account the process of its industrial clients in order to maintain a continuity of service throughout each operation.

✓ Aggregate supply

In order to best control fire risk and meet all regulatory requirements, Uxello offers comprehensive and customised management of your fire safety equipment. You benefit from a single point of contact for a simplified management of your project. With a comprehensive facility management, all facilities are checked and tested according to a pre-established program.

✓ Special risks

Where the use of sprinklers is unsuitable to the environment because the use of water could cause damage, Uxello is able to recommend special risk techniques.
