

## UXELLO SERVICES ILE-DE-FRANCE SETS UP IN THE SOUTH-EAST OF PARIS

In order to strengthen its presence in departments 77, 91 and 94, the company has since December 3 an office at VINCI Facilities at 67 avenue de Fontainebleau at KREMLIN BICETRE in the Val de Marne.

[Configure cookies](#)

This coexistence will reinforce existing links with the VINCI Facilities teams, specialists in multi-technical and multi-service maintenance; the objective being to multiply common offers.

By getting closer to its tertiary and industry customers in these departments, Uxello will be able to optimize its travel time and thus offer even more attractive rates.

The ambition of Uxello Services Ile-de-France is to win new customers in the logistics and airport infrastructure sector, thanks to its success at Roissy airport.

The next step will be to open by 2021 a new company in South East of Paris.
