

WELL BEING AT WORK

[Configure cookies](#)

Antoine Charles, business unit manager of Uxello Nord and his team, moved into a new building at 1535 boulevard Darchicourt in Hénin Beaumont.

A move was needed because the site was too old and too small for the growing business unit. At Hénin Beaumont, everything has been redesigned to offer teams a welcoming site, improving well-being at work. The open spaces much brighter, have design furniture and green plants. For more conviviality and exchanges, the teams benefit from spaces of relaxation, imagined, in tones of relaxing greens.
